Description

The fields visible under this section maybe more or less depending on the interfaces that have been activated. Below is an illustration of some of the fields.

Field	Description
Target GDS	Check boxes of interfaces that have been activated on the agency i.e Amadeus, Galileo, Sabre and so on
Interfaces	

Amadeus	Travel Department OID	Register the Amadeus Office ID to which the profile will be synchronized (optional - only needed if the profile should be synchronized to a different OID as the one set on the agency. If the field is empty, the profile will be synchronized to the main office ID set on the agency)
	Reporting Office	The Amadeus Office ID will be transmitted as "shadow destination" (A.I.R - FK and ES element)
Concur	Refresh Token	Enter provided refresh token provided for the Concur entity/ site ID
	Travel Config ID	Enter the respective travel config. ID
Conferma	Conferma GUID	Enter the respective GUID
Cytric	Cytric server	Entry of Cytric server if differs form the standard agency setting
	Cytric org	Search of the respective Cytric Location and Divison for the profile
	Disconnect travellers from Cytric	All Cytric login names in the traveller profiles, Cytric Org Id and Travel Groups will be removed from Faces although the profiles will still stay in Faces. The profiles will not be deleted from Cytric either. The connection between Faces and Cytric is hence disconnected and profiles are retained in both systems separately
	Main Group	Drop down of the travel groups from which one must select the main travel group
	Travel Groups, Group ID, Description	Company related Cytric Travel Policy Group including free text description
Evolvi	Auth. org. username	Enter the respective username
	Auth. org. password	Enter the respective password
	Auth. organisation ID	Search field in which the respective organisation ID is selectable
Galileo	PCC	Register the Galielo PCC to which the profile will be synchronized. If the field is empty, the profile will be synchronized to the main PCC set on the agency
	Host Access Profile (HAP)	Enter the HAP corresponding to the above entered Galileo PCC
	Agency Location	Entry of the 3-letter-Code where the agency/company is located. (Galileo Phonefield Element)
Get There	SubSite Name	Enter the respective SubSite name
Railmaster	Railmaster PCC	Enter the Railmaster PCC

Sabre	IPCC	Register the Galielo PCC to which the profile will be synchronized. If the field is empty, the profile will be synchronized to the main PCC set on the agency
	Agency Location	Entry of the 3-letter-Code where the agency/company is located. (Sabre City Airport Code)
	Company Template	Search of respective Sabre company templates
	Traveller Template	Search of respective Sabre traveller templates
Trainline	<div>Corporate Reference</div> <div>Enter Trainline corporate reference</div>	
VIBE	<div>Corporate ID</div> <div>Enter VIBE corporate ID</div> <div>Override storefront URL</div> <div>Enter a different URL to override the default URL set on the agency</div>	
Farelogix	Only check box, no additional fields	
Atriis	Only check box, no additional fields	
Tramada	Only check box, no additional fields	
Atlasos	Only check box, no additional fields	
Travelport Hotelzon	Only check box, no additional fields	
ehotels	Only check box, no additional fields	
Magnatech	No checkbox, only activated on the agency	
Traveldoo	Needs company specific field configuration	
KDS	Needs company specific field configuration
