Publishing (Traveller Tab)

Overview

Publishing

Amadeus CSX	Last published at 11:03:08 on 18-May-2020, result was: Associated company has no record locator
Profile no.	-

Description

Field	Description
Publishing	• A synchronization status of the traveller profile to any interfaces that have been activated on the company profile will be indicated here This applies to successful as well as unsuccessful transmissions. • For an initial and successive successful synchronization, the profile number is also deposited under "Profile no". This can be a PAR Title, record locator, username and so on depending on the target GDS/ OBE. • For failed initial synchronizations as in the above example, no "profile no" is deposited in the profile. These errors are also reflected in the Profile Center under Publishing errors
