

Atriis Sources

Atriis Sources can be used in custom field (columns name)

Atriis Field	Source
Form of Payment/ Address	billingStreet
Form of Payment/ City	billingCity
Form of Payment/ Zip Code/Postcode	billingZipCode
Form of Payment Country	billingCountry
Form of Pament/ State Code	billingstateCode
Users Group	UsersGroup

Apart from the above predefined sources, for any Faces custom fields that have to be mapped to Atriis, the name give in Atriis for the dynamic fields/ extra fields created there **should be exactly the same** as whatever value is give in under "Name" section of the custom fields.
