

Atriis Configuration

Please advise Atriis that you wish to interface to them from Umbrella and pass them the following information:

- Add. Agency Attribute: <Agency UUID>
- External communication URL: [https://api.pci-proxy.com/v1/push/<Datatrans push key>/<agency key \(without blanks\)>/atriis/updateprofile.json](https://api.pci-proxy.com/v1/push/<Datatrans push key>/<agency key (without blanks)>/atriis/updateprofile.json)

Note: If the agency is not storing credit cards, and therefore does not require a Datatrans/Midoco push key, use the following logic

- External communication URL: <https://tenzing.umbrella.ch/faces/integrated/<agencykey>/atriis/updateprofile.json>
