

Release Note 19. November 2019

GDPR - Warning Message in case of date of birth is under 16 years

A Warning message is displayed if a user (all users) is adding a date of birth which is under 16 years. Similar function which we have already delivered for sensitive data (Meal request, smoker).

Warning: Storing and processing of children's personal data under GDPR regulations require parental consent! I hereby confirm that parental consent has been obtained for the storage and processing of Children's profile information including personal data.

CSV File - Last modify & publish States

The CSV file export includes new columns:

Last modify date	sortedPublishStates#.lastpublished	Indicates the date of last synchronisation
Synchronisation Status	sortedPublishStates#.lastpublishState	Indicates status of last synchronisation

This new columns are available for every connected interface.

Note: This is a only export function, no import possible.

Approver selectable by traveller

In the company profile "Traveller Setting" it can be selected whether an approver can be chosen by the traveller.

Traveller settings

- ☒ Set new profile as traveller
- ☐ Set new profile as arranger
- ☐ Require approver
- ☒ Self-approval allowed
- ☒ Approver selectable by traveler

Note: the default is true (activated checkbox)
