# Release Note 1. February 2021

Farelogix/SPRK - publishing to different PCC

At company level, a different SPRK PCC can be entered to push the profiles to a different PCC than stored in the agency configuration.

Beside the PCC, the Agency IATA Code, Agent ID and Agent Password needs to be entered within the "Interface setup" of a company.

Note:

- empty PCC, Agency IATA Code, Agent ID and Agent Password will publish profiles to the default PCC configured in the agency configuration
- change of PCC, Agency IATA Code, Agent ID and Agent Password will delete and create the profiles in the PCC's

Concur Polling time increased

The Concur polling interval is increased to every 15 minutes, starting x:05, x:20, x:35 and x:50 every hour.
