The relevant subfields for the Target GDS Amadeus & Sabre are now positioned to the Target GDS toggles. Fields which are effected are

Amadeus:

- Travel department*
- Travel dep. access*

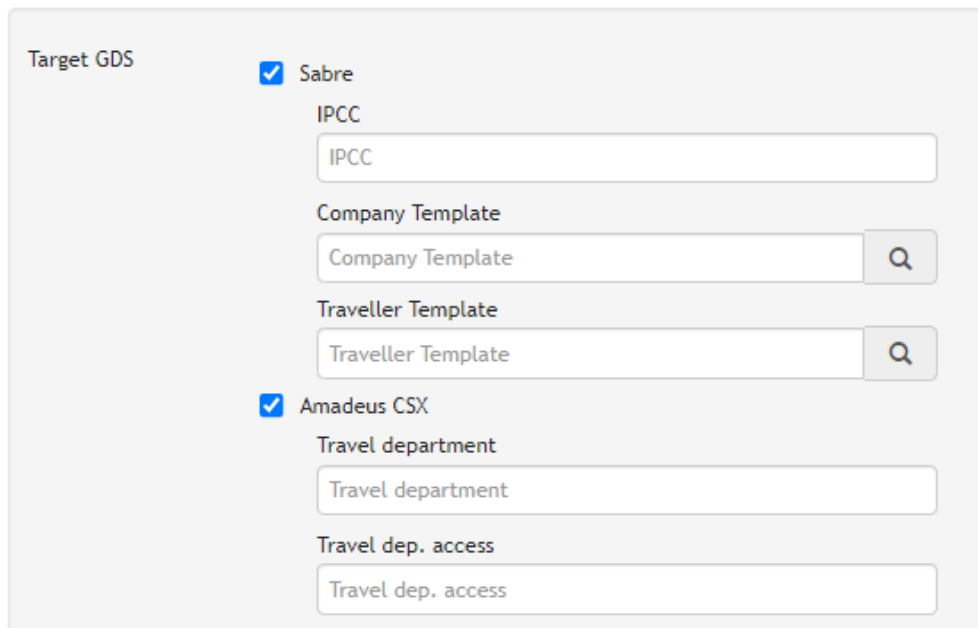

** will be renamed to Amadeus OID and Org-ID with the next release!*

Sabre:

- IPCC
- Company Template
- Traveller Template

New Design:

Interface setup

The screenshot shows a 'Target GDS' configuration window. It contains two main sections, each with a checked checkbox and several input fields:

- Sabre** (checked):
 - IPCC: Input field containing 'IPCC'.
 - Company Template: Input field containing 'Company Template' with a search icon.
 - Traveller Template: Input field containing 'Traveller Template' with a search icon.
- Amadeus CSX** (checked):
 - Travel department: Input field containing 'Travel department'.
 - Travel dep. access: Input field containing 'Travel dep. access'.
