

Release Note - 26. January 2022

Customization of standard fields

The agency tab now provides you the possibility to maintain the majority of the Faces standard fields. The standard fields can be configured on agency level to be hidden, mandatory, or read-only in the company and/or traveller profiles for the different type of users. The company setup allows you to override the configuration from your agency configuration, or create a separate setup.

Profile type	Field	Apply	Override
<ul style="list-style-type: none">C = CompanyT = Traveller	List of Faces standard fields	List to which User/Administrator the setting should apply <ul style="list-style-type: none">Entire agencyCompany-admin and travellersTravellers	How the standard field needs to be shown <ul style="list-style-type: none">OptionalMandatoryRead-onlyHidden

Example:

Customize standard fields

Profile type	Field	Apply to	Override	
C	Phone	Entire agency	Mandatory	✗
T	Arranger / Assistant	Company-admin and travelers	Read-only	✗
T	Middle name as in Passport	Entire agency	Hidden	✗
T	Citizenship	Travelers	Mandatory	✗
T	Mobile	Entire agency	Mandatory	✗
Add new				

Explanation:

Profile type	Field	Apply to	Override
C	Phone	Entire agency	Mandatory

In all company profiles the field "Phone" will be mandatory for all Administrators (Circle-, Agency-, Company-Administrators).

Profile type	Field	Apply to	Override
T	Arranger / Assistant	Company-admin and travelers	Read-only

For Company-Administrators and Travellers the "Arranger / Assistant" will be read-only. The Circle- and Agency-Administrator will be able to read/write the "Arranger / Assistant".

Profile type	Field	Apply to	Override
T	Middle name as in Passport	Entire agency	Hidden

The "Middle name" will be hidden (not displayed) in all traveller profiles for all users (all Administrators & Travellers).

Profile type	Field	Apply to	Override
T	Citizenship	Travelers	Mandatory

The "Citizenship" will be mandatory for all travellers. The field will be optional for the Circle-, Agency- and Company-Administrators.

Profile type	Field	Apply to	Override
T	Mobile	Entire agency	Mandatory

The "Mobile" will be mandatory in all traveller profiles for all users (all Administrators & Travellers).

More detailed information is available in our documentation: [Customize standard fields](#).

Sabre - ignore Subject Areas

With the Sabre "Ignore Subject Areas" below subjects can be ignored in the Sabre synchronisation. The usage will not remove the content stored in the Subject Areas in Sabre

IgnoreSubjectAreas	
<ul style="list-style-type: none">• Remark• PriorityRemarks• Discounts• AssociatedFilters• AssociatedProfiles	<ul style="list-style-type: none">• IGN_SUBJ¥Remark• IGN_SUBJ¥PriorityRemarks• IGN_SUBJ¥Discounts• IGN_SUBJ¥AssociatedFilters• IGN_SUBJ¥AssociatedProfiles

Example of custom publish action:

Custom publish actions

Action	Profile type	Interface	Source	Target	
<div>COPY</div>	<div>-</div>	<div>Sabre</div>	genFixedPriorityRemarks	IGN_SUBJ¥[]	✖

This copy with the fixed value of "PriorityRemarks" will not override any existing value in the Sabre profiles PriorityRemarks subject.

Read from profile pending

We changed the behaviour in case a profile couldn't successfully be imported from an external system (OBE, GDS) and shows

in the publishing state. For as long as this publishing message is shown, the profiles won't be pushed to any other connected target systems anymore. The publishing state to those other target systems will show

. Once the issue "Read from profile pending" is solved in the system, and the profile saved, it will be synchronized to all target systems.
