Release Note - 15. September 2022

New Search Function Travelers & Companies

The search of profiles refers to the following:

Company	Traveler
• Company name • Company shortname • Customer number • Agency key • Publish States (Record Locator, PAR-Title, etc.)	• Lastname • Firstname • Username • Company shortname • Company name • Publish States (Record Locator, PAR-Title, Login ID, Username, etc.)

The new search function will exclude the following:

Company	Traveler
• Publish States (Record Locator, PAR-Title, etc.)	• Company shortname • Company name • Publish States (Record Locator, PAR-Title, Login ID, Username, etc.)

The search for Publish States and Company name, shortname can be used by adding a prefix:

Search key	Prefix	Example
Publish States	rl:	rl:"ABCABC" rl:"SMITH JOHN"
Company name Company shortname	comp:	comp:"COMPANY ABC"
Combination search for lastname and company	<lastname> comp:	Smith comp:"COMPANY ABC"

In case the search not find a match, a new system message is generated.

- Your search did not return any results. To search for a profile no., use the 'rl:' prefix. To search for company (short)name, use the 'comp:' prefix). Example search: luke comp:DISNEY
