

# Release Note - 15. September 2022

## New Search Function Travelers & Companies

The search of profiles refers to the following:

Company	Traveler
<ul style="list-style-type: none"><li>• Company name</li><li>• Company shortname</li><li>• Customer number</li><li>• Agency key</li><li>• Publish States (Record Locator, PAR-Title, etc.)</li></ul>	<ul style="list-style-type: none"><li>• Lastname</li><li>• Firstname</li><li>• Username</li><li>• Company shortname</li><li>• Company name</li><li>• Publish States (Record Locator, PAR-Title, Login ID, Username, etc.)</li></ul>

The new search function will exclude the following:

Company	Traveler
<ul style="list-style-type: none"><li>• Publish States (Record Locator, PAR-Title, etc.)</li></ul>	<ul style="list-style-type: none"><li>• Company shortname</li><li>• Company name</li><li>• Publish States (Record Locator, PAR-Title, Login ID, Username, etc.)</li></ul>

The search for Publish States and Company name, shortname can be used by adding a prefix:

Search key	Prefix	Example
Publish States	rl:	rl:"ABCABC" rl:"SMITH JOHN"
Company name Company shortname	comp:	comp:"COMPANY ABC"
Combination search for lastname and company	<lastname> comp:	Smith comp:"COMPANY ABC"

In case the search not find a match, a new system message is generated.

- Your search did not return any results. To search for a profile no., use the 'rl:' prefix. To search for company (short)name, use the 'comp:' prefix). Example search: luke comp:DISNEY
