

Release note - 05. March 2024

New Hotel Chain Codes and synchronization logic

The hotel chain code list has been updated. There are now 485 hotel chains (before 360) available for selection in the company and traveler profiles.

Since there is no industry standard for hotel codes and the corresponding hotel names, Umbrella Faces offers a best effort Hotel chain list.

With the new Hotel List a new feature is implemented that only the hotel chains are synchronized in the respective target system if this hotel chain is also supported in the target system.

Example:

Carlson Hotel (CW)

Names in OBE/GDS

Amadeus	Sabre	Travelport+	Worldspan	Cytric	Concur	Deem	GetThere	Tramada	Conferma
Radisson Hotel Group	CARLSON HTL BRAND	Radisson Hotel Group	Carlson Hotel Brands	Radisson Hotel Group	Radisson Americas	not available	Carlson Hotel Brands	Carlson Brands	The Carlson Rezidor Hotel Group

- Hotel Code CW is shown as "Carlson Hotel" as the majority of the target system label CW as Carlson Hotel.
- Hotel Code CW will be pushed to Amadeus, Sabre, Travelport+, Worldspan, Cytric, Concur, GetThere, Tramada and Conferma
- Hotel Code CW will not pushed to Deem

An Umbrella Faces Hotel Code Standard has also been implemented, which is use in the CSV Export/Import and within our API (Synch API & Profile on Demand API).

A complete list of the hotel chains with hotel code and mapping into the target system is attached [Hotellist.xlsx](#) (please download the file to receive it correctly in Excel)
